

Meet Kanchan, a true inspiration in our community!

Kanchan's journey is a testament to the incredible power of education and sustainable agricultural practices. With determination and support from DRCSC, she has transformed her 1.5 bigha plot into a diverse nutritional garden, enriching her family's diet and livelihood.

From cultivating a variety of vegetable crops to raising fruit trees like sapodilla, guava, and pineapple, Kanchan's garden is a thriving oasis of nutrition. Her

innovative approach includes raising fish, goats, hens, and cows, providing her family with both protein and income.

What's truly remarkable is Kanchan's self-sufficiency. By conserving seeds and utilizing every resource, she not only sustains her family's needs but also generates profits.

Recently, she even received a biogas setup, reducing her fuel consumption and furthering her commitment to sustainability.

Kanchan's story is one of resilience, resourcefulness, and community-driven change earning a profit of INR 41,600/- in the year 2023. Let's celebrate her success and the transformative impact of empowering individuals like her!
