## ENVIRONMENT / NATURAL RESOURCES / EARTH SCIENCE — ENVIRONMENTAL SCIENCE / ECOLOGY Book

**Environmental Sustainability Booklet : Climate Change, Waste, Water, Energy, Citizenship and Biodiversity - 6 Booklets - 8573/16.01.50/CEE**

**CEE**

**Sub : Environment & Development**

**Pub : CEE, Nehru Foundation for Development, Thaltej Tekra, Ahmedabad 380054**

**Isbn : 978-81-902018-6-5**

**2008, 45p per booklet, Rs.300/-**

This series of 6 booklets on Environmental Sustainability includes title : Climate change & Waste & Water & Energy & Citizenship & Biodiversity & and with a special focus on climate change. Each booklet aims to motivate individuals to take action to mitigate global warming by providing basic information.

**Paribesh Siksha (Chatra - Chatrider Sahayak Booklet - O- Prosnopatra) - 8595/16.01.60/CCE**

**CCEC(Centre for Coastal Environmental Conservation Sub : Environmental Education / Curriculum**

**Pub : CCEC (Centre for Coastal Environmental Conservation), 34/1 Babukhan Road, Khulna-9100, Bangladesh 1999, 48p**

This supplementary booklet on environment education with questions for the student of standard III to V. This booklet is the part of teacher's manual on the same subject and is generated as the IC material of the programme 'Develop a Local Environmental Education Programme Towards Sunderban Conservation'. Twenty elementary sections are included in four chapters. 1st chapter (1-6 sections) is for student of standard III. 2nd & 3rd chapters (7-15 sections) is for student of standard IV. 4th chapter (16-20 sections) is for student of standard V. This booklet helps the student to develop their skill on this subject.

**Paribesh Siksha ( Ekti Sahpath -Sikshak Manual) - 8596/16.01.60/CCE**

**CCEC(Centre for Coastal Environmental Conservation Sub : Environmental Education / Curriculum**

**Pub : CCEC (Centre for Coastal Environmental Conservation), 34/1 Babukhan Road, Khulna-9100, Bangladesh 1999, 38p**

lib.news vol.12no.2

## Special Issue on **ENVIRONMENT**

This supplementary education manual on environment is generated from the programme 'Develop a Local Environmental Education Programme Towards Sunderban Conservation' which has been taken by CCEC. This manual is mainly for teacher who teaches primary standard of students. 20 elementary sections are included in 4 chapters. 1st chapters (1-6 sections) for standard III, 2nd & 3rd chapters (7-15 sections) for standard IV and 4th chapter (16-20 sections) for standard V. Based on this manual a booklet is made for students. Posters with slogans are also prepared. Manual, booklet and posters all these three are togetherly used as a package of environment education.

**Paribesh Sikkhaye Sundarban - 8597/16.01.60/CCE CCEC(Centre for Coastal Environmental Conservation**

**Sub : Environmental Education / Coastal Areas**

**Pub : CCEC (Centre for Coastal Environmental Conservation), 34/1 Babukhan Road, Khulna-9100, Bangladesh 2004, 40p**

This booklet is published as supplementary booklets on the topic Sunderban to develop the knowhow of the students and teachers about Sunderban. This booklet is generated as the programme 'Environmental Education for Sunderban Community'.

**Sanbade Paribesh : Paschimbanga 2008 - 8602/16.01.50/DEB**

**Deb, Sasanka (ed.)**

**Sub : Environment & Development / Resource Materials**

**Pub : DISHA, 20/4 Shil Lane, Kolkata-700 015 2009, 404p, Rs.300/-**

A living guide on State of environment in West Bengal. It is a collection of yearound (2008) clips from mainstream dailies. Rapid decay of environment and its serial erosion of flora fauna - habitat etc. are now a hot potato all around. Media-casting of experts, points and counter-points are always on the way. Tracing a definite data from the flow, is troublesome. The compilation is intended to serve it and beyond.

**The Science of Transportation : Science Around Us**

**Series, Booklet : I - 8603/18.01.00/DAS**

**Das, Anshuman (ed.)**

**Sub : Science/Environment & Development**

**Pub : DRCSC, 58A Dharmatala Road, Bosepukur, Kasba, Kolkata - 700 042 2009, 44p**

This booklet is the first of the series on science around us which deals with questions emerging out of the garden

and kitchen and other places. This series describes the amazing achievements in the field of S&T communication; describes the alternatives to the danger of chemicals that we use daily. This 1st booklet describes the science of transportation with illustration in a very simple way and given answers of the questions which are emerging out of the inquisitiveness of young mind.

**The Science of Kitchen : Science Around Us Series, Booklet : II - 8604/18.01.00/DAS**  
**Das, Anshuman (ed.)**  
**Sub : Science/Environment & Development**  
**Pub : DRCSC, 58A Dharmatala Road, Bosepukur, Kasba, Kolkata - 700 042**  
**2009, 40p**

This booklet is the second of the series on science around us which deals with questions emerging out of the garden and kitchen and other places. This series describes the amazing achievements in the field of S&T communication; describes the alternatives to the danger of chemicals that we use daily. This second booklet describes the science of kitchen specially food science with illustration in a very simple way and given answers of the questions which are emerging out of the inquisitiveness of young mind.

**The Science of Construction : Science Around Us Series, Booklet : III - 8605/18.01.00/DAS**  
**Das, Anshuman (ed.)**  
**Sub : Science/Environment & Development**  
**Pub : DRCSC, 58A Dharmatala Road, Bosepukur, Kasba, Kolkata - 700 042**  
**2009, 40p**

This booklet is the third of the series on science around us which deals with questions emerging out of the garden and kitchen and other places. This series describes the amazing achievements in the field of S&T communication; describes the alternatives to the danger of chemicals that we use daily. This third booklet describes the science of construction with illustration in a very simple way and given answers of the questions which are emerging out of the inquisitiveness of young mind.

**The Science of Chemicals : Science Around Us Series, Booklet : IV - 8606/18.01.00/DAS**  
**Das, Anshuman (ed.)**  
**Sub : Science/Environment & Development**  
**Pub : DRCSC, 58A Dharmatala Road, Bosepukur, Kasba, Kolkata - 700 042**  
**2009, 36p**

This booklet is the fourth of the series on science around us which deals with questions emerging out of the garden and kitchen and other places. This series describes the amazing achievements in the field of S&T communication; describes the alternatives to the danger of chemicals that we use daily. This fourth booklet describes specially on the chemistry of chemicals which are used for home as household product and impact of these chemicals on the human body with illustration in a very simple way and given answers of the questions which are emerging out of the inquisitiveness of young mind.

**The Science of Garden : Science Around Us Series,**

**Booklet : V - 8607/18.01.00/DAS**

**Das, Anshuman (ed.)**

**Sub : Science/Environment & Development**

**Pub : DRCSC, 58A Dharmatala Road, Bosepukur, Kasba, Kolkata - 700 042**

**2009, 44p**

This booklet is the fifth of the series on science around us which deals with questions emerging out of the garden and kitchen and other places. This series describes the amazing achievements in the field of S&T communication; describes the alternatives to the danger of chemicals that we use daily. This fifth booklet describes the science of garden including plant nutrition, plant propagation, design of kitchen garden, plants and other materials with illustration in a very simple way and given answers of the questions which are emerging out of the inquisitiveness of young mind.

**The Vulnerable Planet : A Short Economic History of the Environment - 8617/16.01.10/FOS**

**Foster, John Bellamy**

**Sub : Environmental Science & Research / Ecology / Environmental Degradation**

**Pub : Cornerstone Publications, P.O.Hijli co-operative, Kharagpur-721306**

**Isbn : 81-901060-3-1**

**1994, 160p, Rs.90/-**

In this book, Forster Grounds his discussion of the global ecological crisis in the inherently destructive nature of our world economic system. His argument leads inexorably to the conclusion that basic changes, not marginal adjustments, are urgently needed. Rich in historical and environmental detail, this book begins with a description of the frightening reality of global ecological catastrophe and the haphazard responses of government and world bodies. The book focuses more directly on the interconnections between the ecological vulnerability of the planet and a world economic system geared to the promotion of private profit. Lastly it takes the case for saving the earth beyond visions of doom, arguments about sustainability, and individual solutions.

**Indigenous Vision : Peoples of India Attitudes to the Environment - 8648/16.01.00/SEN**

**Sen, Geeti (ed)**

**Sub : Environment / Indigenous Population / Folk Culture**

**Pub : Sage Publications India Pvt. Ltd. M - 32, Greater Kailash Market -1, New Delhi - 110048**

**Isbn : 81-7036-308-X**

**1992, 304p, Rs.950/-**

This edited volume explores various facets of the environmental practices of the indigenous populace of India. The contributors present the rituals and folklore of these people to show how they are shaped by the environment they inhabit and are reflected in ingrained ethics of ecobalance. The case studies presented focus variously on the Warlis of Bombay, the panniyers of Kerala, the Gonds, Kols and Bhumis of Shahdal, the Gujjars of Himachal Pradesh, the Mundas, oraons and Santals of Central India. Other papers deal with Buddhist traditions, the impact of alien laws and attitudes on tribal populations and distorted projections of biodiversity propounded by international agencies in order to pass on the responsibility to developing nations.

**Nillohiit : Paribesh -O- Monan Samkhya (Bishes Paribesh Sankhya) - 8655/16.01.50/DAS Dasgupta, Basab (ed.)**

**Sub : Environment & Development**

**Pub : Paramita Dasgupta, 15 Kaji Najrul Islam Sarani, Nimta, Kolkata-49**

**2004, 404p**

This issue presents articles related to different aspects of environment written by various authors. These article are divided into the following sub-themes : Idea and thoughts on environment; Philosophy and eithics of environment; Nature, surrounding & climate; Environmental crisis; Tourism & Environment; Public health and environment; Social, Cultural, Intellectual, Political environment; Literature & environment; Life & environment.

**Sundarbaner Arthaniti, Janasanskriti -O- Paribesh - 8794/03.01.00/CHA**

**Chakraborti, Ranjan & Mistri, Indra Kumar**

**Sub : Economics / Environment**

**Pub : Reader's Service, 59/5 A, Garfa Main Road, Kolkata-700 075**

**Isbn : 81-87891-60-2**

**2007, 168p, Rs.125/-**

This book mainly covers the regional economy, environment, water transport, markets, local culture of Sunderban coastal area. It discusses the following topics in five chapters. 1st chapter cover the colonial regime and tiger in Sunderban. 2nd chapter deals the environmental degradation in Sunderban. 3rd chapter presents the local or regional economy. 4th chapter cover the transport systems specially water transportation and markets. 5th chapter presents the culture of people in that area which differs from culture of city and other areas.

## Article

**Ban Climate Conferences and Use all Energies for Real Action - 8633/16.01.50/SIR**

**Sirohi, Madhu Singh & Sengupta, Roshni**

**Sub : Environment & Development / Development Policy**

**Pub : Terragreen, c/o.TERI, Darbari Seth Block, 1HC**

**Complex, Lodhi Road, New Delhi-110003**

**2009, Vol.II, Issue.1, 22-25p**

On the occasion of Delhi Sustainable Development Summit, 2009, the authors spoke with Thomas Friedman, on the sustainability debate, which has gripped the world. According to the man in question, the next level promising industry happen to be on producing clean air, water, clean technology, efficient power and efficient energy. Friedman, in his interview has vehemently criticised the implementation of economic policies which heavily depends on rivers, forests, climate and enviornments, which we are heavily polluting.

## Occasional Papers

**Climate Change and Cities - 1432/08-016/17.02/1432 id21 insights**

**Sub : Climate / Urban Areas**

**Pub : id21, Institute of Development Studies, University of Sussex, Brighton, BN1 9RE, UK**

**2008, 6p**

The bulletin warns off on lethal conclusions of climate change. Depicts adaptation measures. Highlighted India lib.news vol.12no.2

and Latin America. Enclosed a case study and International agenda published by Institute of Development Studies UK.

## eBook

**Ecology and the Politics of Survival - E464/16.01.00/SHI Shiva, Vandana**

**Sub : Natural Resources / Economic Development**

**Pub : Sage Publications, 32, M-Block Market, Greater Kailash, New Delhi-48**

**1991**

This book analyses environmental conflicts in contemporary human society. In general it relates to societies all over the world, but in particular it addresses the most intense and emerging social contradictions in India related to conflicts over natural resources. It attempts to analyse the relationship between economic development and conflicts over natural resources to trace the roots of ecological movements.

**The Environmental Food Crisis - E468/16.01.50/NEL Nellesmann, Christian & Others (ed.)**

**Sub : Environment & Development / Food Policy**

**Pub : UNDP, 219 Huntingdon Road, Cambridge CB3 0DL, UK**

**2009, 104p**

The publication makes seven significant recommendations. These include real opportunities for boosting aquaculture and fish farming without intensifying damage to the marine environment alongside ones highlighting the opportunities for minimizing and utilizing food wastes along the supply chain right up to consumers. This report will make an important contribution to the debate but equally it needs to trigger more rational, creative, innovative and courageous action and investment to steer 21st Century agriculture onto a sustainable Green Economy path.

## — NATURAL RESOURCES & ECO ZONES

## Book

**National Biodiversity Strategy and Action Plan : India - 8585/16.02.10/GOI**

**Govt. of India, Ministry of Environment & Forests**

**Sub : Natural Resource Policy / Natural Resource Management**

**Pub : Ministry of Environment & Forests, Government of India**

**2002, 538p**

This first draft of the National Action Plan of the National Biodiversity Strategy and Action Plan contains eight main chapters. 1st chapter deals with background and objectives, methodology, scope and approach of NBSAP. 2nd contains the statement of principles. 3rd chapter deals with evolutionary, physical and historical context of India's biodiversity. 4th chapter discusses the overall profile of India's biodiversity. Some key proximate and root causes for the loss of biodiversity is dealt in 5th chapter. 6th chapter discusses ongoing initiatives and key actors involved in the conservation of biodiversity. Broad strategies and related actions are dealt in 7th chapter. 8th chapter deals with the overall implementation mechanism.

**Traditional Knowledge of Biodiversity in Asia - Pacific : Problems of Piracy and Protection - 8653/16.02.11/GRA GRAIN & Kalpravriksh**

**Sub : Natural Resource Management**

**Pub : GRAIN, 134, Tower 10, Supreme Enclave Mayur Vihar, Ph I , Delhi - 110 091**

**2002, 29p**

Using numerous examples, this briefing provides details of the changes that are occurring in Asia - Pacific, from international agreements and regional initiatives to action taken by farming communities. Many people at the grassroots level are working to fight back and protect their resources and knowledge from blatant exploitation. Emerging strategies on what communities and organisations can do to further ensure the strengthening of community rights are outlined.

**Tahader Katha : Aare, E To Amadero Katha - 8709/16.02.00/BHA**

**Bhattacharya, Silanjan**

**Sub : Natural Resources / Animal Resources / Life Styles**

**Pub : Gangchil, Matir Bari, Unkarpar, Gholabazar, Kolkata-700111**

**Isbn : 978-81-89834-32-6**

**2008, 96p, Rs.100/-**

This book presents the life pattern of different animals and insects who are habitat of this ecosystem. Life style of each animals and insects are presented through a small story and tries to show that there is resemblance with the human society.

## Occasional Paper

**A Preparatory Assessment of Vulnerability of the Ecologically Sensitive Sunderban Island System, West Bengal, in the Perspective of Climate Change - 1545/09-066/17.02/1545**

**Hazra, Sugata & Others**

**Sub : Climate / Natural Resources & Eco Zones**

**Pub : Ministry of Environment & Forest, GOI, New Delhi 2004, 17p**

Sunderbans, the only mangrove tiger land of the globe with the highest species diversity of mangrove and mangrove associated flora and fauna is presently under the threat of severe coastal erosion due to relative rise in sea level, cyclones and surges. The present study reveals that changes that are taking place in this ecologically sensitive island system may have a close relationship with the process of climate change.

**Sea Level and Associated Changes in the Sunderbans - 1546/09-067/17.02/1546**

**Hazra, Sugata & Others**

**Sub : Climate / Natural Resources & Eco Zones**

**Pub : Science & Culture, Vol.68 NO.9-12, Sep-Dec'02,**

**Indian Science News Association, 92 APC Road, Kolkata-700 009**

**2002, 13p**

This papers contains the research in which authors have tried to observe the changes if any, in the physical dimension of this coastal ecosystem over a period of 10-20years. They have selected components such as i) temperature regime, ii) Shore line change and iii)

occurrence of high intensity climatic events like cyclones, iv) sea level change. Simultaneously, biological and social aspects like changes in forest cover and land use patterns, food grain, fish production and population pressure have been studied to understand the vulnerability of the ecosystem with respect to possible climate change.

**Climate Change and Agricultural Biodiversity - 1565/10-003/17.02/1565**

**Biodiversity International**

**Sub : Climate / Natural Resources & Eco Zones**

**Pub : Biodiversity International, via dei Tre Denari, 472A 00057 Maccarese, Rome, Italy**

**2009, 2p**

This paper highlights that how the total area of cultivation of important crops will drop due to climate change, diversity of wild relatives of crops are themselves threatened by climate change. It also says that a pilot study of the impact of global warming showed that any wild relatives of peanuts, potatoes and cowpeas are liable to go extinct by 2050. It says that we need action oriented research to discover the best ways of using agricultural biodiversity to improve yields and make them move resilient: intensification without simplification.

## eBook

**Re-Uniting Climate Change and Sustainable Development - E0445/17.02.00/KIN**

**King, Peter & Others**

**Sub : Climate / Natural Resources**

**Pub : IGES, 2108-11, Kamiyamaguchi, Hayama, Kanagawa-240 0115, Japan**

**2008, 312p**

The publication consists of three main parts. Part I contains detailed discussions on climate change strategies. Part II looks at climate change related issues in several sectors including forestry, energy (biofuels), waste management, and groundwater, as well as key institutional and industry developments in response to climate change challenges. Part III brings together the main conclusions and recommendations.

## — NATURAL RESOURCE MANAGEMENT

## Book

**A Comprehensive Handbook on Biodiversity - 8714/16.02A.00/GHO**

**Ghosh, A.K.**

**Sub : Natural Resource Management**

**Pub : TERI Press, The Energy and Resources Institute, Darbari Seth Block, IHC Complex, Lodhi Road, N.D. 110003**

**Isbn : 978-81-7993-165-3**

**2008, v+130p, Rs.395/-**

'Biodiversity' is becoming the keyword for sustaining human society and the ecosystem. This book provides an insight into the concept of biodiversity, its value and uses, aspects of conservation of material and traditional knowledge, the linkage between ethnic communities and biodiversity, and several other topics of interest in a lucid and user-friendly manner.

**Surja Ke Niye- 8719/16.02A.80/MUK**

**Mukhopadhyay, Projjal Kumar (Trans.)**

**Sub : Renewable Resources**

**Pub : Ananda Publishers Pvt. Ltd. 45 Beniyatola Lane, Kolkata-700 009**

**Isbn : 81-7215-871-8**

**1999, 35p, Rs.35/-**

This book is part of the educational series named 'world-vision' explains the sun as a source of energy. This series is for the young learners.

**Saktir Utsa - 8721/16.02A.80/MUK**

**Mukhopadhyay, Projjal Kumar (Trans.)**

**Sub : Renewable Resources**

**Pub : Ananda Publishers Pvt. Ltd. 45 Beniyatola Lane, Kolkata-700 009**

**Isbn : 81-7215-663-6**

**1997, 35p, Rs.50/-**

This book is part of the series named 'world-vision' deals with the source of power in a very simplistic language and with illustrations.

**Kolkatar Gach - 8768/16.02A.10/CHA**

**Chakraborty, Rudraprasad**

**Sub : Plants & Plant Genetic Resources**

**Pub : Papyrus, 2 Ganendra Mitra Lane, Kolkata-700 004**

**Isbn : 8175-037-3**

**2008, 158p, Rs.100/-**

This book presents the introduction of one hundred five trees in Kolkata with the name of the place in Kolkata where the trees are found now.

**Ecosystem-based Adaptation : A Natural Response to Climate Change - 8776/17.02.00/ITU**  
**IUCN**

**Sub : Climate / Natural Resource**

**Pub : IUCN, Gland, Switzerland**

**Isbn : 978-2-8317-1215-4**

**2009, 16p**

This report presents 10 examples of Ecosystem - based Adaptation taking place in both developing and developed countries, at national, regional, and local scales, and in marine, terrestrial, and freshwater environments. The case studies demonstrate how Ecosystem-based Adaptation is being implemented at project and programme levels.

## Article

**10 Great Green Technologies - 8727/16.02A.50/SIN**  
**Sinha, Arani**

**Sub : Energy Resources / Alternative Technology**

**Pub : Terragreen, c/o.TERI, Darbari Seth Block, 1HC Complex, Lodhi Road, New Delhi-110003**

**2009, Vol.II, Issue.2, 18-20p**

The article discuss 10 innovations in technologies which are considered as break through in the field of alternative energy. The adoption of these technologies will be able to radicalic the lives of human being.

## eBook

**Integrated Solutions to the Water, Agriculture - E0434/16.02A.11/VAR**

**Varghese, Shiney**

**Sub : Natural Resource Management / Agri. Development**

**Pub : Institute for Agriculture and Trade Policy (IATP), USA**

lib.news vol.12no.2

**2009, 22p**

The dramatic convergence of multiple crises—global warming, hunger and depletion of natural resources such as water—compels us to shift from the dominant industrial agriculture model and consider a new way forward. it could play a critical role in addressing global challenges related to climate, water, social justice and food. The publicaion examines the posibiities to combat those challenges.

**Mainstreaming Poverty-Environment Linkages - E0462/16.02A.11/CON**

**Coninck, Sophie De**

**Sub : Natural Resource Management / Poverty**

**Pub : UNDP-UNEP**

**2009, 134p**

The purpose of this handbook is to provide practical, step-by-step guidance on how governments and other national actors can mainstream poverty-environment linkages into national development planning by sustainable use of these ecosystem services and natural resource assets.

**Global Trends in Sustainable Energy - E0469/16.02A.50/GRE**

**Greenwood, Chris**

**Sub : Energy Resources / Climate**

**Pub : UNEP**

**2009, 64p**

Sustainable energy has a significant role to play in mitigating climate change.This publication presents the financial perspective on the current state of play in the development of sustainable energy. The analysis consists of actual data on the different types of capital flows and their movement over time, combined with analysis of regional and sectoral trends. The information is intended to serve as a strategic tool to be used by decision makers in the policy and finance communities globally as they weigh-up commitments to the sustainable energy sector.

## — ENVIRONMENTAL DEGRADATION

### Book

**Natural Hazards and Disaster Management - 8574/16.03.00/CHA**

**Chakraborty, Satyesh C.**

**Sub : Disasters**

**Pub : Pragatishil Prakashak, 37A College Street, Kolkata-700 073**

**Isbn : 81-89846-05-01**

**2007, 190p, Rs.180/-**

In the series of essays in this book the author offers are updated overview of the science of natural hazards, which are the normal manifestations of the pulsating behavior of nature. Fifteen types of natural hazards have been covered and many of these carry appendices to keep the interest of scholars wishing to know a little more their the average. The principles used in prediction or approximating prediction of these natural hazards have been discussed. In addition to the explanations of natural hazards, the actions required by the societies to face the disasters as also to recover from these.

**Climate Crisis : Challenges and Options - 8619/17.02.00/**

**RAG****Raghunandan, D. & Others****Sub : Climate / Environmental Degradation****Pub : AIPSN & TISS, D-158, LG Floor, Saket New Delhi-110017****2008, 90p, Rs.50/-**

This book aims to provide authoritative information on various aspects of climate change both technical and with regard to the science - society interface which is of Prime Concern to the Peoples' Science Movement in India. The following issues related to climate change are discussed in 8 sections. Green house effect, greenhouse gases, carbon cycle, science of global warming, current status of climate change, impact of global warming, mitigation strategies, politics of climate change & International Negotiations, Indian emissions & energy scenario, Bali Declaration, Developing Countries and India, Targets for India.

**Workshop on Adaptive Strategies in Floods - 8624/16.03.11/GEA**

**GEAC & WINROCK****Sub : Environmental Degradation / Strategic Planning****Pub : GEAC, P.B.# 60. Gorakhpur - 273001****2007, 27p**

This booklet contains the proceedings of a workshop on 'Adaptive Strategies in Floods' in New Delhi on 17-18th December 2007. The discussion has covered the following topics related to strategies which to be adopted in floods. Concepts and Perspectives of Adaptation; Practices and issues of adaptation; Flood Mitigation Practices with the experience in Eastern U.P.; Practices and Adaptation : exploring links; and Policy environment and Practices : Exploring synergies.

**Global Warming : A Global Warning - 8670/17.02.00/SPA SPAR**

**Sub : Climate / Environmental Degradation****Pub : SPAR, 49/53, Prince Gulam Muhammad Shah Road, Kolkata-700 033****2008, 109p**

This volume presents articles which are presented at a day long seminar on 'Global Warming : A Global Warning' organised by SPAR on 28.06.2008 in Kolkata. In this seminar social and environmental activists along with the subject matter specialists and experts meet to share their knowledge and experience to formulate a plan of action in this respect.

**Conference on Community-based Disaster Risk Reduction : 26-28 November 2008 - 8674/16.03.00/UNI UNICEF**

**Sub : Disaster / Community / Conference****Pub : UNICEF India Community Office, UNICEF House, 73, Lodi Estate, New Delhi-110003****2009, 156p**

A three day conference on Community-based Disaster Risk Reduction (CBDRR) was organised by UNICEF in partnership with the govt. of West Bengal, UNDP, Sphere India, Asian Preparedness Centre and Red R India, in Kolkata from 26-28 Nov. 2008. With the purpose of sharing CBDRR practices among the conference participants as well as with CBDRR policy makers and practitioners in India and globally. It attempts to document

various initiatives, lessons learnt and best practices in the field of community-based disaster risk reduction from India and the region.

**CEDRA Climate Change & Environmental Degradation Risk & Adaptation Assessment an Environmental Tool for Southern NGOs. For Field Testing - 8676/16.03.00/TEA**

**TEARFUND****Sub : Disaster / Climate****Pub : Tearfund, 100 Church Road, Teddington, TW11 8QE, UK****51p**

This booklet presents a series of exercises with worked examples to help the user complete the CEDRA process and report. Many of the essential tools which have developed by DRR community are discussed here in brief and more extensively in Tearfund documents listed in Appendix B, useful Resources.

**Turning the Tide : Good Practices in Community Based Disasters Risk Reduction - 8730/16.03.00/SPH**

**Sphere India, EFICOR****Sub : Disaster / Community Participation**

**Pub : Sphere India, Building No.3, Flat No.401/3, Sona Apartments, Kaushilya Park, Hauz Khas, New Delhi-110016, India & EFICOR, HQ:308, Mahatta Tower, B-Block Community Centre, Janakpuri, New Delhi-110058, India 2010, 134p**

This book is an attempt to promote the culture of documentation at community level and a collection of innovative and sustainable practices in disaster risk reduction drawn from 11 states of India. These practices have been classified into five chapters - drought, earthquake, flood, cyclone and integrated hazards management. Each of them narrates the initiatives taken by the Non-governmental and community based organizations in the field of disaster risk reduction, stories of resilient communities and processes they adapted to eliminate threats posed by hazards.

**Good Practices in Community Based Disaster Risk Management - 8749/16.03.00/UND**

**UNDP****Sub : Disaster / Environmental Protection**

**Pub : United Nations Development Programme, 55 Lodhi Estate, P.O.Box 3059, New Delhi-110003, India x+76p**

This publication is an attempt to document the various initiatives towards disaster risk management programme. It presents many community-led-innovations that have made this programme both sustainable and replicable. This book covers awareness generation, capacity building of people and communities, institution-alization, involvement of community, gender mainstreaming, convergence and partnership, case study for field under the disaster risk management programme.

**Rachel Carson -O- Tar Silent Spring - 8763/16.03.10/KUN Kundu, Suresh**

**Sub : Environmental Degradation / Pests & Disease Management****Pub : Jyan Bichitra Prakashani, 11 Jagannathbari Road, Agartala-799 001****Isbn : 978-81-8266-165-3**

**2009, 160p, Rs.120/-**

This bengali version presents the key points of the original english book 'Silent Spring' in brief. This version includes the brief biography of Rachel Carson which is not in english version. This book contains 10 chapters and where the following topics are covered. The danger of environment, chemical pesticides and our responsibility, the danger of some pesticides like DDT & other. Soil and soil microbes are destroyed by pesticide, the layer of soil and plants are destroyed by pesticide.

**Manobikatar Ghosanapatra -O- Biparjoe Sara Deor Nunyatama Mann - 8783/16.03.00/SPH**

**The Sphere Project**

**Sub : Disaster / Human Rights / Livelihood**

**Pub : The Sphere Project, P.O.Box 372, 17 Chemin**

**Dress Crets CH-1211, Zeneva 19, Switzerland**

**Isbn : 92-9139-097-6**

**2004, 329p**

The basis of this handbook is the Universal Declaration on Human Rights. This has been prepared obeying the principles and conditions of international philanthropic laws and also following code of conduct of Red Cross, Red Crescent Movements and disaster management practices prepared by NGOs. The main principles which have been clarified in Human Rights declaration basically guide implement the action programmes of humanitarian activities. At the same time this provides support and security to the people affected in natural and man-made disasters (like armed conflicts and riots) and ensure their right to live with dignity. There are separate eligibility levels and indicators for each of the four applicable stages : water supply, sewerage and development of hygiene; food security and food support; supply of other materials except relief camp and food, health service.

**Biparjoi Junki Sankuchitakaran Prakaipa - 8784/16.03.00/BIP**

**Biparjoi Babyasthapan Daptar, Paschimbanga Sarkar**

**Sub : Disaster**

**Pub : Biparjoi Babyasthapan Daptar, Paschimbanga Sarkar**

**2010, 20p**

This booklet presents direction or guidelines related to responsibilities of different disaster combat groups to combat natural disasters in village level. It also mention guidelines of responsibilities which followed by people before disaster, time of the disaster and after disaster.

## eBook

**Climate Change and Displacement - E0443/16.03.10/COU**

**Couldrey, Marion & Maurice, Herson**

**Sub : Environmental Degradation / Climate**

**Pub : University of Oxford, 3 Mansfield Road, Oxford**

**2008, 80p**

Human migration, forced or otherwise, will undoubtedly be one of the most significant consequences of environmental degradation and climate change in decades to come. A large numbers of people are already on the move, with millions more expected to follow as evidence of climate change mounts. This publication highlights these issues.

**Adapting to Climate Change - E0431/17.02.00/GTZ**

**Haerlin, Benedikt**

**Sub : Climate / Environmental Degradation**

**Pub : GTZ, Germany**

**2007, 36p**

The impacts of climate change are very alarming to the developing countries. They hit poor countries and their people particularly hard, putting their development at risk. how poor people's livelihoods are actually affected by climate change. On the following pages individuals in Africa, Latin America and Asia tell us about climate change and how it affects their lives. They also share with us their strategies to deal with existing and anticipated changes.

**Abrupt Climate Change - E0441/17.02.00/NAP**

**National Academy Press**

**Sub : Climate / Disasters**

**Pub : National Academy Press, Washington, DC, USA**

**2008, 253p**

Abrupt climate changes were especially common when the climate system was being forced to change most rapidly. This publicaion is an attempt to describe what is known about abrupt climate changes and their impacts.

**Guide on Climate Change and Indigenous - E0457/17.02.00/TAU**

**Tauli-Corpuz, Victoria & Others**

**Sub : Climate / Environmental Degradation**

**Pub : Tebtebba Foundation, No.1 Roman Ayson**

**2008, 108p**

The aim of this publication is to enhance our knowledge on climate change so that we will be better equipped to participate more effectively in shaping relevant policies and actions taken to address this issue. It also aims to enlighten non-indigenous peoples on our own experiences and perspectives on climate change.

**More Than Rain : Identifying Sustainable - E0458/**

**17.02.00/ULS**

**Ulsrud, Kirsten**

**Sub : Climate / Environmental Degradation**

**Pub : Development Fund, Norway**

**2008, 68p**

This book aims to contribute to the increased understanding of how to integrate climate change adaptation in poverty reduction projects and programs in ways that increase the capacity of individuals, households and communities to respond to climate variability and change. What adaptation to climate change possible, and what kinds of activities and measures for climate adaptation should be included in development projects. In other words, the book explores what adaptation to climate change can look like in practice.

**Policy Guidance On Integrating Climate - E0459/**

**17.02.00/EPO**

**Environmental Policy Committee**

**Sub : Climate / Environmental Degradation**

**Pub : EPOC**

**2009, 189p**

Climate change impacts such as drought, floods, severe weather and sea-level rise are likely to result in food shortages, increases in vector-borne diseases, infrastructure damage, and the degradation of natural

resources upon which livelihoods are based. While efforts to integrate climate change adaptation into development will be led by developing country partners, donor agencies have a critical role to play in supporting such efforts as well as in integrating such considerations within their own organisations. To this end, partners and donors alike need adequate guidance. This Policy Guidance is intended to provide policy makers and practitioners in development co-operation agencies with information and advice on how to mainstream climate change.

**Agriculture and Climate Change : An Agenda - E0461/17.02.00/NEL**

**Nelson, Gerald C.**

**Sub : Climate / Environmental Degradation**

**Pub : IFPRI, Washington, DC 20006-1002, USA**

**2009, 29p**

Climate change threatens agricultural production through higher and more variable temperatures, changes in precipitation patterns, and increased occurrences of extreme events such as droughts and floods. This publication suggests negotiating outcomes for both adaptation and mitigation that will support climate change goals while enhancing the well-being of people who manage and depend on agriculture, especially in the developing world.

## Article

**Paradigm Shift in Managing Disaster - 8723/16.03.00/MEN**

**Menon, N. Vinod Chandra**

**Sub : Disasters**

**Pub : Yojana, c/o. Yojana Bhavan, Sansad Marg, New Delhi-110066**

**2009, Vol. LXIII, Issue.6, 8-13p**

The article speaks on occurrence of natural & man-made disasters and its various levels of impact. The article talks about a paradigm shift in mitigating disasters, which can be envisaged through the Disaster Management Act, 2005. The new method is more inclined towards proactiveness, mitigation and preparedness rather than erstwhile relief-centric, as the article reports.

**From Risk To Resilience - 8724/16.03.00/KUM**

**Kumar, Santosh**

**Sub : Disasters / Development**

**Pub : Yojana, c/o. Yojana Bhavan, Sansad Marg, New Delhi-110066**

**2009, Vol. LXIII, Issue.6, 23-26p**

The article discuss the need for reforms in the financial sector, so as to hasten the acts of prevention and mitigation, thereby transforming development more apt to withstand disasters. Some graphs and block diagrams explain clearly the essential framework, on which development can be based on.

**Community Based Disaster Management - 8725/16.03.00/GUP**

**Gupta, Mann & Charda, Shivangi**

**Sub : Disasters / Community**

**Pub : Yojana, c/o. Yojana Bhavan, Sansad Marg, New Delhi-110066**

**2009, Vol. LXIII, Issue.6, 32-35p**

In the eve of an array of disasters hitting the civilization Community Based Disaster Management (CBDM) is grossly practised and accepted in the disaster-prone regions. This methodology is discussed in detail in here which is comprehensive enough to prove the efficacy and aptness of the methodology.

**Climate Change & Disaster - 8726/16.03.00/KUM**

**Kumar, Dileep**

**Sub : Disasters / Climate**

**Pub : Yojana, c/o. Yojana Bhavan, Sansad Marg, New Delhi-110066**

**2009, Vol. LXIII, Issue.6, 45-39p**

The Impending danger of climate change and global warming pose as threat-sources for disasters that hit communities, as the article reports. The two graphs within the article, clearly proves the need to make the stakeholders aware of the changes as the climatic levels, globally, which give births to disasters.

## Occasional Papers

**Climate Change - Disaster Management in Pakistan - 1567/10-005/17.02/1567**

**Govt. of Pakistan & Others**

**Sub : Climate & Meteorology / Disasters**

**Pub : IUCN & DFID, Govt. of Pakistan**

**4p**

This paper contains the process or steps which have been taken by govt. of Pakistan to manage disasters caused by climate change and specially prove to flood and drought. The National Disaster Management Authority has been established as the focal point and lead agency for coordinating and facilitating the implementation of strategies and programmes on disaster risk reduction, response and recovery.

**Zero Waste for Zero Warming : Because no Community is Disposable! - 1572/10-010/17.02/1572**

**GAIA**

**Sub : Climate & Meteorology / Environmental Degradation**

**Pub : GAIA, Quezon City, GAIA, Quezon City, Philippines**

**2p**

This paper presents the initiatives of Gaia to manage waste through promoting positive solutions at local, national, regional and global levels. It mentions the negative impact of incinerators and landfills on human health, climate, economy and jobs and what gaia does all these sections to aware people and communities.

**Goodbye Copenhagen - 1579/10-017/17.02/1579**

**Chowdhury, Farooque**

**Sub : Climate & Meteorology / Environmental Degradation**

**Pub : Published in Frontier 7-13 February, 2010**

**2010, 3p**

This article mentions that the Summit in Copenhagen is not successful to the people who wants a solution for global warming issue and they have returned to homes with back bent with empty promises. Despite vigorous protests by the vibrant souls feeble voices muttered 'Goodbye Copenhagen'.

## — ENVIRONMENTAL ENGINEERING

### Article

**Lethal Reuse - Saving Lives or Dispensing Depths - 8728/16.04.22/MUK**

**Mukherji, Suparna**

**Sub : Waste Disposal / Health Hazards**

**Pub : Terragreen, c/o. TERI, Darbari Seth Block, 1HC Complex, Lodhi Road, New Delhi-110003**

**2009, Vol.II, Issue.2, 34-37p**

A very critical and important issue is being addressed here in this article. The management of Biomedical waste, is something, which is most neglected and are infested with corruption. The article gives a list of common biomedical wastes. It also pen down the ways to handle such situations, neglecting which may cause outbreak of disease and extremely hazardous impacts. In shout the country must 'know its waste'.

## — ENVIRONMENTAL PROTECTION

### Book

**Sadharan Pakhi - 8715/16.05.11/ALI**

**Ali, Salim & Ali, Like Fatheo**

**Sub : Wild Life Conservation / Birds**

**Pub : National Book Trust, India, A-5, Green Park, New Delhi-110016**

**Isbn : 81-237-2720-8**

**2005, ix+121p, Rs.40/-**

This book presents 101 birds with their order, family, genus, species and physical description.

### eBook

**Facilitating Conservation and Sustainable Use of Biological Diversity - E0296/16.05.00/UNEP**

**Sub : Resource Conservation & Restoration / Natural Resources**

**Pub : UNEP**

**2003, 73p**

Protected areas are vital for the conservation of the world's natural and cultural resources. This study, prepared within the scope of the R&D project 'Developing Concepts for Sustainable Use in Selected Subdomains of Biological Diversity' commissioned by the German Federal Agency for Nature Conservation aims at analyzing the current state of protected areas in Germany. The study investigates the compatibility of the principles of the Ecosystem Approach with the implementation of protected areas of various categories in Germany.

### Article

**An Integrated Approach to Climate Change Adaptation - 8677/17.02.00/GUR**

**Gurung, Gahendra Bahadur & Dinanath, Bhandari**

**Sub : Climate / Environmental Protection**

**Pub : Leisa India c/o AME Foundation, No204, 100 Feet Ring Road, 3rd Phase, Banashankari 2nd Block, 3rd Stage**

**2008, Vol.X, Issue.4, 10-12p**

A case study based in the terrain of Nepal, where the impact of climate change is quite stark and distinct. A range of natural calamities like destruction of land by

floods and landslides, subsequent decline of land productivity compels people to encroach forest lands, cultivate steeper slopes and look for alternative means for living. The need of the hour is to adopt such a means of living, which is integrated, compounding agriculture & livestock, development, watershed, forest land and soil

### Occasional Papers

**Zero Waste - 1550/09-071/16.05/1550**

**Murray, Rabin**

**Sub : Environmental Protection**

**Pub : Published in 'Frontier' Vol.42 No.14 October 18-24, 2009**

**2009, 2p**

Waste is the shadow side of the economy. This paper discusses on the Zero Waste with the background of its idea, zero waste as post modern tools, programme of economic alternative, redesign of production system, etc.

## — EARTH SCIENCE

### eBook

**India - Climate - Friendly Development - E0455/17.02.00/GOI**

**Ministry of Environment and**

**Sub : Climate**

**Pub : TERI, New Delhi**

**2002, 57**

This publication highlights some relevant aspects and the way in which India is striving to adopt a climate-friendly path to development. Through various initiatives, India is contributing effectively to global efforts to address climate change. All these are discussed here.

**Global Warming Primer - E0460/17.02.00/NCP**

**National Centre for Policy Analysis**

**Sub : Climate / Socio Economic Condition**

**Pub : NCPA, USA**

**2007, 40p**

The purpose of this booklet is to explore some of the main scientific, economic and political issues surrounding the topic of global warming.

**Making Climate Your Business - Private - E0467/17.02.00/WIT**

**Withey, Lauren**

**Sub : Climate / Socio Economic Condition**

**Pub : Climate Change Stockholm, Sweden**

**2009, 64p**

Adapting to climate change means adjusting plans and activities to account for new climate trends. It means changing the way businesses, governments, and other organizations operate, so that people can thrive in a warming world. This publication seeks to assist businesses operating in Southeast Asia to understand the need to adapt to climate change. What is climate adaptation, and what does it mean for business? Learn what others are doing within government, civil society, and the private sector to promote adaptation, and how these activities may affect the rest of society. Identify the risks and opportunities that climate change impacts present, both for business and for the broader society.

## Occasional Papers

**Public Hearings and the National Action Plan on Climate Change - 1562/09-083/17.02/1562**

**National Action Plan on Climate Change**

**Sub : Climate & Meteorology**

**Pub : National Action Plan on Climate Change 2009, 7p**

This paper contains the programme agenda of the public hearing and the National Action Plan on Climate Change held on November 11-13 2009 at Constitution Club in New Delhi. Inaugural session is on the women's tribunal on climate justice with testimonies from Dalit and Muslim Women. 2nd topic is public hearings on the climate crisis and Eco System communities. 3rd is the Climate crisis and the way forward.

**Copenhagen : A Failed Summit - 1564/10-002/17.02/1564**

**Ruz, Fidel Castro**

**Sub : Climate & Meteorology**

**Pub : FRONTIER, January 24-30, 2010, Kolkata 2010, 5p**

This article presents the summit on climate change in Copenhagen with the key points which expressed by president of America, Prime Minister of U.K. It also mentions the statement of Cuba's Foreign Minister at Press Conference on 21st December, 2010 at Copenhagen and speaking on behalf of a group of ALBA member countries, defended China, India, Brazil, South Africa and other important emerging economies States.

**Linking Climate Action and Poverty Alleviation : An Approach to Informed Decision Making - 1568/10-006/17.02/1568**

**TERI**

**Sub : Climate & Meteorology / Socio Economic Condition**

**Pub : TERI**

**2010, 8p**

This booklet presents the proposal which highlights the main ideas regarding linking of Climate Action and Poverty Alleviation. The proposed approach is prepared by TERI with support from the energy environment group of the United Nations Development Programme. TERI proposed a structural approach to achieving 3 states to linking the challenge with the opportunity requires realignment of adaptation and mitigation programmes for poverty alleviation.

**Civil Society Coalition for Climate Justice and Equitable Development - 1571/10-009/17.02/1571**

**Civil Society Coalition for Climate Change**

**Sub : Climate & Meteorology**

**Pub : Civil Society Coalition for Climate Change, C/ O.Dr.A.Ghosh, ENDEV, Kolkata**

**2009, 2+2p**

This paper presents a perspective note on climate crisis prepared by civil society organisation and networks.
